

STATEMENT OF WORK
LAUNDRY SERVICES

GORE-TEX JP-8 FUEL HANDLER'S COVERALL

Fleet Readiness Center Southwest (FRCSW)
Naval Air Station North Island (NASNI)
San Diego, California 92135

SECTION 1 - GENERAL

The scope of work is for laundry services of GORE-TEX JP-8 FUEL HANDLER'S COVERALL NSN 8415-01-500-9101 (hereafter referred to as GORE-TEX and/or coveralls) for the Fleet Readiness Center Southwest (FRCSW), Naval Air Station North Island (NASNI) in San Diego, California and the off-site locations identified below. The period of performance for this effort shall be twelve (12) month base period and three one year options. The specific period performance start data will be determined.

1.1 OBJECTIVE

FRCSW maintains approximately eighty-two (82) of the GORE-TEX coveralls for thirty of its artisans working inside jet aircraft fuel cells. It is envisioned that the coveralls will require cleaning on a monthly basis. Thus, on a monthly basis the contractor is expected to pick-up 41 coveralls, launder and return the following month.

1.2 BACKGROUND

FRCSW is the largest aerospace repair facility in San Diego County and performs factory level and service life extension repairs to several naval aircraft platforms including the F/A-18, H-60 and H-53 and E2/C2 airplanes. FRCSW has nearly 2,600 civilian employees and approximately 1,000 military members who work in various production areas.

It is anticipated that each artisan will have two pairs of GORE-TEX coveralls issued – they will wear one pair for one month while the other is out for laundry. The GORE-TEX are only worn while in the fuel cells and are anticipated to get saturated in jet fuel and allowed to dry prior to next use – the monthly cleaning schedule is deemed sufficient based on the fact that the coverall primary contaminant, jet fuel, will evaporate when stored in specialty lockers.

SECTION 2 - WORK ELEMENTS

2.1 WORK ELEMENT 1 – Pick-up and Delivery Services

The contractor shall manage the pick-up and delivery of the coveralls on the same day of the week on a monthly basis. If that day falls on a holiday, then the last working day preceding the holiday will be the pick-up and delivery day. The following quantities exist at the various FRCSW operating locations in the West Coast Region of the United States – the contractor shall provide laundry services for half (½) of the following inventories on a monthly basis:

- NASNI, San Diego, CA, 92135 Bldg 94 — 34 coveralls total
- NASNI, San Diego, CA, 92135 Test Line, Bldg 785 — 6 coveralls total
- MCAS Miramar, 9215 Boyington Hangar 2, San Diego CA 92145 — 4 coveralls total
- NAS Lemoore, Lemoore CA, 93246 Bldg 180 — 22 coveralls total
- NAS Fallon, Fallon NV, 89496 Hangar 3 — 8 coveralls total
- NAS Whidbey Island, Seattle WA, 98278 Bldg 219 — 8 coveralls total

It is anticipated that the contractor may subcontract out the pick-up, laundry and delivery services for areas outside the greater San Diego region. The contractor shall provide services Monday through Friday (excluding federal holidays) between the hours of 06:00 a.m. and 02:00 p.m. local time.

2.2 WORK ELEMENT 2 – Laundry Service

The operational use of the coveralls will be for internal fuel cell work on a regular basis by each artisan. It is envisioned that the principal contaminant will be jet fuel, which will be allowed to evaporate when not in use while kept in specialty storage lockers.

On a monthly basis, one of the artisan's GORE-TEX coveralls will be machine washed per the garments' instruction.

SECTION 3 - SPECIAL CONDITIONS

3.1 All communications with parties outside of the Navy team shall be coordinated through the Contract Specialist and Customer.

3.2 Public Affairs - The contractor shall not disclose any information or data resulting from actions in this project to the news media or public. The contractor shall refer all press or public contacts to the customer. The contractor may not distribute reports or data to any source, unless specifically authorized by the Public Affairs Officer in accordance with publication security review and clearance processes.

3.3. Any oral directives, instructions, explanations, commitments and/or acceptances given by any government employee to the contractor or his personnel, shall not be construed by the contractor as a change in scope to this contract. Any change in scope of work must be issued to the contractor, in writing, by the Navy's Contracting Officer to be binding on the government.

3.4 For pick-up and delivery services, the contractor shall have individuals who have RapidGATE access.

SECTION 4 – NAVY TEAM/POINTS-OF-CONTACT

Technical Point of Contact (TPOC)
Mr. Mark G. Weir
FRCSW NAS North Island, Bldg 334 M
